Accounting, Finance & Economics eBook Collection

Spanning a wide range of topics, this eBook collection serves the academic and professional research communities in Accounting, Finance & Economics (A,F&E). Authors are drawn from leading organizations worldwide, including; The University of Illinois (USA), New York University (USA) and Rice University (USA).

Key Titles

Research in Labor Economics

Research in Labor Economics is a biannual series that publishes new peer-reviewed research on important and policy-relevant topics in labor economics, applying economic theory and econometrics, often with an international focus.

Solomon Polachek is a Distinguished Research Professor and has been the series editor since 1995. Authors have ranged from young scholars with much potential to mature leaders in the field, including Nobel Prize and John Bates Clark award winners.

International Finance Review

This series publishes theme-oriented special issues on various aspects of international finance. Topics covered include but are not limited to: global risk, emerging markets, international investment, global corporate finance and governance, economic and financial integration, currency and capital markets, multinational financial management, and related issues.

Series editor, **Dr. J. Jay Choi**, is an internationally renowned scholar in international financial management, global corporate governance and finance, international corporate risk management and investment, and Asian business and finance.

Advances in Management Accounting

Series Editor: **Mary A Malina**, University of Colorado Denver, USA

This series publishes thought-provoking articles that advance knowledge in the management accounting discipline for both academics and practitioners.

Downloads of the following chapter in this book series is the highest throughout the whole AF&E book collection:

'Using knowledge management systems to manage knowledge resource risks' Volume 15 (2006)

1991 - 2015
