

REGE – Revista de Gestão

Special Issue Call for Papers: Applied Research Articles: narrowing the gap between research and organizations

Special Issue Aims and Scope:

REGE solicits high-quality papers for a special issue focusing on applied research articles. The aim of the special issue is to publish empirical papers that brings relevant contribution, to practice in Management - that is, it aims to contribute to the evolution of management practices, by bringing something new or counter-intuitive, or by disseminating concepts and techniques previously developed, but studied in a specific context. REGE's special edition will accept applied articles in the following topics:

- Public Administration
- Entrepreneurship, innovation and technology
- Strategy
- Financial and accounting management
- People management
- Socio-environmental management
- Marketing
- Operations

Benefits of Submitting to this Journal:

- Wide visibility of the research published: All articles will be published and made freely available – using the Open Access CC-BY 4.0 Creative Commons Attribution licence
- Fast publication: Once accepted, individual articles are typeset, proofed and published online as the Version of Record within an average of 32 days
- Enhanced discoverability: Articles published in the Journal are given global visibility and accessibility via <http://www.emeraldinsight.com>- an industry leading research platform with enhanced search and discoverability through enriched metadata and search engine optimization.

Submission Procedure:

Papers should be submitted electronically online via the REGE submission system at: <https://mc.manuscriptcentral.com/revge>

Please follow the journal submission guidelines [here](#) and select the title of this special issue during the submission process. The submission deadline is **31 January 2019**. Authors are, however, encouraged to submit their papers early. Editorial decisions may be made accordingly well before the submission deadline. All submissions will be subject to double blind peer review by referees.
