Featured titles

Internet Research

The first publication to use the phrase “World Wide Web” as coined by Sir Tim Berners-Lee. Today, this title continues to publish leading edge research on internet technologies and applications, including social media, e-government, web analytics, smart phones and mobile operating systems.

Scopus

Journal of Knowledge Management

The oldest and most authoritative international academic journal in knowledge management. The title continues to feature relevant topics, including: Big Data, integration with social media, managing knowledge resources and knowledge sharing communities.

Scopus

“Internet Research continues to provide an outlet for the publication of the latest research relating to internet technologies and applications, and their impact upon society. It is recommended reading for academics and practitioners alike, regularly providing material of interest and value to both communities.”

Professor Steven Furnell, University of Plymouth, UK
EAB member of *Internet Research* and Editor of *Information and Computer Security*
