Special Issues:

Cross Cultural & Strategic Management, 2019

“Family Business and Local Development in IberoAmerica”

Most of the research on family business has focused on Spain but the family business phenomenon has hardly been investigated or contextualised in IberoAmerica. This research gap has significant theoretical and practical consequences for the family business field.

International Journal of Conflict Management, 2019

“Conflict Management in Engineering”

This special issue is designed to encourage the publication of research at the confluence of engineering and conflict management. This includes the cross-disciplinary environment of business administration and engineering.
