

eJournals 2020

Property Management & Built Environment Collection

This extensive collection focuses on solutions for real world problems in the built environment and is aimed at researchers, practitioners and policy makers. We publish quality, advanced, cutting edge and impactful research in real estate and construction.

Many titles maintain links with key associations; for example, the *Journal of European Real Estate* is the official journal of the European Real Estate Society and the *Journal of Place Management and Development* is the official journal of the Institute of Place Management. Ten of the titles are CIB-encouraged.

Featured Titles:

Engineering Construction

Special Issues:

Facilities, 2019

“Shaping tomorrow’s facilities management”

This collection of papers focuses on how digitalization supports sustainability not only through workplace change and building design but also through performance measurement, certification schemes and an awareness of the wider urban context.

International Journal of Building Pathology and Adaption, 2019

“Sustainable development, adaptation and maintenance of infrastructure”

This special issue presents high-quality research papers on best industry practices and case studies relating to the adaptation and maintenance of infrastructure towards sustainable development.

Leading authors and editors:

David John Edwards, Birmingham City University, UK.

His mix of practical and academic experience has led to a proven track record of invention, for applying innovative processes, embracing entrepreneurship and producing high impact teaching and research outputs. He has an h-index of 25 and his articles have increased in usage consistently since 2009.

Stephen Ogunlana, Heriot-Watt University, UK. Professor Ogunlana has an international reputation for research in the application of system dynamics simulation to construction projects and organizations. He has an h-index of 25 and has been increasingly downloaded and cited over the past ten years.

David Proverbs, Birmingham City University, UK.

David has published well over 200 refereed conference papers and journal papers, numerous consultancy reports and several leading text books on flood risk management. He is co-editor to the *International Journal of Building Pathology and Adaptation*, a member of the RICS UK Education Standards Board and a Trustee to the RICS Research Trust.

Elaine Worzala, College of Charleston, USA. An active member of several academic and professional organizations, Dr. Worzala has completed projects for the Royal Institution of Chartered Surveyors (RICS), International Council of Shopping Centers, Pension Real Estate Association and National Association of Realtors, among other groups. Dr. Worzala believes strongly in bringing relevancy to her classroom from her research projects. She has published articles in many mainstream real estate academic journals as well as industry-based publications and other media.
