100 to 2000

Content viewable by
multiple users
simultaneously

Top up with
more tokens
whenever you need to

More than
50
years of bringing research to life

How does it work?

STEP 1

TOKENS

Decide how many tokens your organization needs – choose from 100, 250, 500, 1000 or 2000 – and purchase via your regional Emerald representative.

STEP 2

ACTIVATION

We'll set up and activate your profile(s) on Emerald Insight – our online content platform – for you and the members of your team who need to access content.

STEP 3

SEARCH

Search through all currently published eJournal and eBook content and use tokens to access the articles and chapters you and your team need. Simple!

WHY ARE RESEARCH PASS TOKENS USEFUL?

Tokens give you access to a huge amount of content across a variety of subject areas. From engineering and AI, health and social administration, team building and development to sustainability and CSR, global taxation and finance; our content can give practical support, help you implement change and positively influence projects and decision making.

WHY IS EMERALD CONTENT VALUABLE?

Emerald journal and books content is authored not only by academics across the globe but also by industry specialists sharing research findings, thought leadership and providing practical support which could have a real impact on your organization. We pride ourselves on championing new ideas and publishing content that is relevant and can make a difference to users across the world.

HOW EASY IS IT TO ACCESS CONTENT?

All content is housed on our Emerald Insight platform. Here you can search for content using subject area, publication year, keywords and the title of the journal, article, book or chapter. You'll be able to read abstracts of content online for free to help to find the right information for you and will only use a token when you select **'use token'** so there's no risk of using them up while just reviewing content.

HOW CAN TOKENS BE USED ACROSS MY TEAM?

Our Customer Support team will set up your account on the Emerald Insight platform. All users at your organization will be able to start using tokens on completion of account set up. Alternatively, if you wish to control usage, users can set up individual profiles to access content.

HOW CAN I MANAGE TOKEN USAGE?

Content accessed by each user can be viewed by everyone on the same account for 24 hours, making our tokens great value. All users from the same organization will be able to see how many tokens are available at any point. We'll also send you updates when you're running low so you can top-up your account and continue to access content without any disruption.

About us

For over 50 years Emerald Publishing's core purpose has been to champion fresh thinkers and help them make a difference so that little by little those in academia or in practice can unite to bring positive change in the real world.

Emerald provides a range of publishing services to help researchers tell their stories in a meaningful and timely way. As a proud signatory of DORA, Emerald has relaunched its Real Impact Manifesto asking the sector to work together towards a fairer, more equitable environment where research can have a real-world impact and those within it can reach their full potential.
