

# ICE Publishing eBooks and eJournals 2025

A leading provider of content in civil and environmental engineering and materials science. With 36 peer reviewed journals, over 1,580 books and an archive of over 36,000 research articles dating back to 1836, ICE Publishing has long been at the cutting edge of civil engineering research and is a critical resource for industry and academia.

<b>640,000+</b> journal articles downloaded in 2023	 Author submissions from 96 countries in 2023	<b>135,000+</b> book chapters downloaded in 2023
 36 journals ranked in Scopus	<b>50%+</b> usage from beyond North America and Europe	 32 journals indexed in Web of Science

**Rigorous:** We publish high quality, peer-reviewed books and journals which are essential resources for researchers and practitioners. All ICE Publishing journals are ranked in Scopus.

**Global:** Our journals offer global perspectives, with author submissions from 96 countries in 2023, and over 50% of usage coming from beyond North America and Europe.

**Change-focused:** We are committed to supporting researchers in minimising the environmental impact of structures and infrastructures. Our content aligns with United Nations Sustainable Development Goals (SDGs) to assist in achieving the 2030 net zero target.

**Sought-after:** These resources are utilized by prestigious institutions and organisations worldwide, and our civil engineering eBook collection, comprising over 1,580 books across 10 subject areas, is the largest in the world.

**Influential:** The ICE Manual of Blue-Green Infrastructure garnered special recognition in Natural England's press release, aligning with the UK Government's 25 Year Environment Plan and its commitment to Green Infrastructure.

## Subject coverage

 Civil engineering	 Contracts, Finance and Law	 Energy
 Engineering history	 Environment	 Eurocodes
 Geotechnics	 Ground engineering	 Infrastructure
 Management	 Materials	 Materials science
 Structures and buildings	 Transport	 Water and waste water

## Who are we?

Championing fresh thinking has been at the heart of Emerald Publishing since foundation over 50 years ago. Our goal is to help those in academia to deliver positive change in the real world through evidence-led research. Through publishing inter-disciplinary and global research we support academics to create something powerful and influence society for the better.

## What you can expect, working with us

### With you every step of the way:

- Local customer support teams
- 24/7 customer support portal [emeraldpublishinggroup.freshdesk.com/support/solutions](https://emeraldpublishinggroup.freshdesk.com/support/solutions)

### Account Management Portal:

- Track content usage
- Run reports
- View access
- Manage authentication settings

### Getting the most out of your ICE Publishing content:

- Toolkits
- User guides
- How-to-videos
- Live training sessions and webinars

## ICE Publishing access options to suit all

Your dedicated business manager will work with you to discover the most suitable option based on evidence and your needs. Different options for archive, rental and access in perpetuity available across:

- **ICE Publishing Journals Collection:**
  - Complete collection (Archive access back to 1836)
  - Current collection (Archive access back to 2003)
  - Science collection (available when purchasing either Complete or Current collection)
- **ICE Publishing Books Collection:**
  - Complete collection
  - Frontlist collection
  - eBook Select
  - Evidence-based acquisition model available

### Discoverable and accessible:

- Atypon powered platform for an exceptional user experience
- No DRM
- Supports Shibboleth, Azure and Athens for ease of access
- COUNTER compliant usage reports
- KBART and MARC
- Secure archiving with Portico
- OpenURL links and DOIs at title, article and chapter level.
- Secure archiving with Portico
- OpenURL links and DOIs at title, article and chapter level

## Our commitment to positive change:

### Diverse voices

Boosting visibility of diverse communities and high quality global engineering research, the ICE Publishing Overseas Prizes are awarded annually for the best articles in ICE journals stemming from authors outside the UK.

### Research impact and impact literacy

We publish working practitioner titles aimed at civil engineers and architects; content on sustainability, infrastructure and urban design aimed at policy makers and local government; titles for contract experts and lawyers.

### Acting ethically and responsibly

We have a United Nations Sustainable Development Goals (SDGs) resource centre, mapping ICE content to SDG's to ensure that the research we publish supports engineers to improve lives.

### Supporting all forms of open research

We have developed a robust open access books and journals programme. Launched in 2014, Geotechnical Research was the first gold open access journal in its field.
