How do I access Emerald Insight?

Step 1: Through your library portal

We recommend you start your research via your institutional library website, where you will be passed through to emerald.com/insight using whichever authentication method the library has chosen.

Contact your library administrator for support if needed.

Step 2: Quick check you are authenticated

If you are logged in to Emerald Insight, your institution name will appear at the top left of the screen. If not, then you will see ‘Welcome guest user’. Speak to your university library if you need help logging in.

Step 3: Access anytime, anywhere...

If your institution uses Shibboleth or OpenAthens for remote login, you will be able to find your institution using the blue ‘Access through your institution option’, which can be found at emerald.com/login or via the content page.

If your institution does not appear during your search, then, unfortunately, this option is not available to you.
